

Another name for dependability

is Dodge

Mileage figures may change on the speedometer of a Dodge Brothers car—but there's one thing that never changes—no matter what the mileage—and that's Dodge dependability. So—in new cars as well as used cars—you are always on the safe and sure side if you choose a Dodge. It's the one car that for fifteen years has been known for its enduring ruggedness, stamina and performance—so that today the name Dodge means dependability in every language. Marquette

DELIVERS PERFORMANCE THAT ONLY BUICK BUILDS

BUILT BY BUICK

Into the Marquette, Buick has built an extra margin of every quality that makes an outstanding leader. On the road the brilliant performance of this swift, smart new six is unmatched by that of any other car of comparable price. Nowhere in the thousand-dollar field can you find such thrilling response, such effortless speed, such big reserves of power.

Only Marquette with its priceless background of Buick craftsmanship can offer such superlative performance at moderate cost. Only Marquette in the thousand-dollar class has an engine of 212.8 cubic inch piston displacement. Marquette alone provides the extra endurance and extraordinary economy of operation that Buick alone knows how to build.

And this handsome new six has even

more to offer than supreme performance and economy! In its class, Marquette is the only car with the remarkable new waterproof, dustproof, wearproof upholstery and the wonderful new non-glare windshield. A host of other exceptional features contributes to its completeness: Dustproof, tilt-ray headlights. Four Lovejoy hydraulic shock absorbers. Big, smooth, fully-enclosed brakes. Airplane-type stepped-size bearings. A completely sealed engine. Beautiful, harmonizing finish, inside and out. Perfect fittings and appointments.

Here is one of the smartest cars on the road... setting the style with new, low-slung, faultlessly tailored bodies by Fisher... and providing performance unmatched in the moderate-price field. See it—drive a Marquette today and know why the world is saying: "A GREAT PERFORMER!"

WHEN BETTER AUTOMOBILES ARE BUILT... BUICK WILL BUILD THEM

New Packard Models Shown - by Robt. Tenan

New models of the Packard Eight which have been awaited with much interest since August 1 when the Packard company announced they would be forthcoming in the early Fall were announced last week. They were placed on display in practically all parts of the country at the same time, including the dealer for this territory, Robert Tenan, 388 N. Pacific Avenue, Redondo Beach.

They are characteristically Packard in appearance although with subtle changes that add much to the proverbial Packard beauty. Comfort, convenience, beauty and safety might be called the keynotes in the new Packards. Changes which have been made in the chassis and in the bodies add much in all four of these attributes which the car has always been credited with having in big measure. Packard has increased facilities of its body factory and now is in complete control of building quality and beauty in its bodies as well as its motors and chassis.

With three complete lines and in addition the almost unlimited choices offered in individual custom bodies by the best known custom body builders of the country Packard now completely covers the fine car field.

There are 11 different types in each line of cars with bodies made within Packard's own shops and four different wheelbases. They are known as the Packard Standard Eight with prices ranging from \$2375 for the five passenger sedan to \$2775 for the seven passenger sedan-limousine; the Packard Custom Eight with prices from \$3190 to \$3885 and the Packard DeLuxe Eight from \$4585 to \$5185.

FORD BREAKS AUG. RECORD GOOD HERE

All August production records for the Ford Motor company were broken during the month just ended, when the domestic and foreign assembly plants of the company turned out a total of 208,634 Model A Ford cars and trucks.

This record also is the largest for any single month in the history of the company, except for October, 1925, during which the world production of Model T cars and trucks slightly exceeded this figure. Total Model A car and truck production since the introduction of the Model A Ford was 3,296,413, on September 1. For the first eight months of this year the total was 1,742,888 cars and trucks, which exceeds the high production record for the same period established in 1923, during which year over 2,000,000 Model T units were built.

Changes Made in Executives by Chevrolet

The announcement of several executive changes in Chevrolet company, effective September 1, were received recently by E. W. Fuhr, Pacific Coast regional zone manager from H. J. Kilger, who is president and general sales manager.

D. Douglas, formerly assistant sales manager, has been appointed general parts and service manager, a position heretofore held by J. P. Little, who goes to General Motors.

R. K. White, formerly was general sales promotion manager and more recently Atlantic zone sales manager, has been appointed advertising manager, succeeding J. E. Grim, Jr., who after occupying the position for 5 years, has been summoned to General Motors.

J. C. Chick, who has been regional sales manager at Flint, has been brought into the central office to succeed Mr. Douglas's place as assistant general sales manager.

C. L. Alexander, Chicago zone sales manager for several years is to go to Flint, succeeding Chick as regional sales manager.

R. L. Myers, until recently zone sales manager at New York is to succeed Alexander as zone sales manager at Chicago.

The marvelous feat of selling more than a million Chevrolet Sixes in eight months exemplifies the spirit and organization of Chevrolet Motor Company. The popularity of the 1929 six-cylinder Chevrolet is expected to prove the means of reaching record-breaking marks in production and sales for 1929.

Sales in the Torrance-Lomita territory have kept up with the phenomenal records set throughout the nation, according to Jack Hansen of the Torrance Motor company.

Motorists doing much night driving in cities or mountains will help themselves greatly by equipping their cars with good spotlights. Precaution should be taken to have the light set in the proper position, according to California laws.

Before starting on a trip be sure that your engine is free from carbon and that valves are properly seated and adjusted.

THAT CAR OF YOURS

If the threads of a spark-plug are coated with graphite grease when they are installed, they will be easy to remove the next time it is necessary to remove them.

An extra fan-belt should always be carried and the belt in use should be examined frequently and replaced if badly worn or stretched.

Wire wheels should be checked for adjusting of the spokes at least once every three months. It is suggested that a wheel expert be commissioned to do the job, for it is easy to get the wheels out of true.

If the car runs well but appears to lag this may be caused by slipping clutch, which the experienced motorist will readily observe by comparing the speed of the motor with the traveling speed of the car.

STATE PICNICS

MICHIGAN More than one hundred thousand former residents of Michigan are looking forward to the mammoth annual official picnic reunion which will be held all day Saturday, September 21st. President M. R. Parmelee will be in charge of the day with the co-operation of the popular secretary E. E. Haring.

The program will open at two o'clock and will include both oratory and music, a short snappy entertainment.

This will be the only picnic of the Michigan Association of Southern California held this fall.

STATE BOARD STARTS PROBE OF WATER COS.

The State Railroad Commission has instituted an investigation on its own motion into the manner and methods of keeping accounts by the Pasadena Valley Water Company, Bell Water Company, Huntington Beach Water Company, Harbor City Water Company, and a score of other water companies.

The hearing on this investigation will be held before Examiner Frankhauser on Wednesday, October 16, at 10:30 a. m. in the Court Room of the Railroad Commission, 810 Associated Realty Building, Los Angeles.

Harbor City

The willing Workers of the Harbor City Community Church met at the home of Mrs. A. B. Bozell 2302 252nd street on Tuesday afternoon for a business meeting. This organization has completed considerable sewing for the Children's Hospital in Los Angeles and plans were made at this meeting for the fall work.

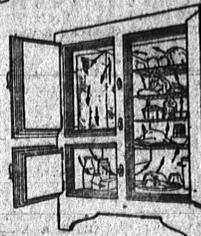

Harold Peterson of Oakland has arrived by airplane here to visit at the home of his brother, Charles S. Peterson, 254 241st street. His two weeks vacation will be spent here and with his many friends in the south here.

The Harbor City Garden Club will meet today at the Girl Reserve cabin on Bellport avenue. All those interested in flowers and gardens are urged to attend.

Mrs. Lillian A. Samuel, 1477 Cypress avenue, Lomita, is having a five-room modern frame house built for her on 261st street.

SAVE WITH ICE

What happens in a good ICE refrigerator

ICE, in a properly constructed and operated refrigerator, creates a constant circulation of pure, cold air, thus removing food odors through the outlet and preventing unappetizing interchange of food flavors. The cycle of air in a well iced refrigerator is exactly as shown in the right-hand illustration. And it is this constant circulation of cold purified air which explains the incomparable freshness of ICE-kept foods.

To enable ICE to serve you most satisfactorily, be sure you have a refrigerator that is well insulated, tightly joined together and built to let air circulate freely. We shall be glad to help you select a properly constructed refrigerator and to see that it is kept well filled with ice.
